

PROMOTIONAL TOOLKIT

OVERVIEW

This toolkit is designed to provide a range of promotional assets to promote your local NAB AFL Auskick centres. These assets are a suite designed to inform, engage, and encourage participation in NAB AFL Auskick for the 2025 season and are part of a multichannel and multi phase campaign strategy. Please refer to the 2025 Kids Pathway Campaign Strategy for more information.

The objective of States, Leagues and Clubs sharing these promotional assets is to build awareness of our NAB AFL Auskick and drive traffic to the play.afl/auskick webpage for audiences to get more information and register to play via play.afl/club-finder-map.

The toolkit includes a range of promotional materials and editable templates that can be used to promote NAB AFL Auskick locally and across different audience groups. These assets include flyers, social media tiles, stories, and digital resources, available in both editable and non-editable formats, as well as print and digital options.

Please remember the official designation for the program is "**NAB AFL Auskick**", you will need to write it in full for your initial mention. After that, you may use the term "Auskick" for brevity.

AUDIENCES

The Game Development Engagement team have done significant work to understand the target audience for NAB AFL Auskick is parents of children aged 4-7, no matter their previous or current relationship with footy.

Engaging parents is key, especially considering that children may be hesitant to join due to factors like anxiety, school pressures, or feeling disconnected. In our 2025 campaigns, we aim to address these concerns by highlighting important aspects such as safety, inclusivity, and balancing competing priorities. We will also emphasize that the AFL Play experience is flexible, fun, and supportive of children's overall wellbeing. Above all, we want to convey that NAB AFL Auskick is about having fun, getting messy, and enjoying the game!

A reminder when sharing content from your centre, It's important that:

- Images reflect the community, and we ask ourselves "Can our audiences imagine themselves in the scene?" Our Canva templates are a great way to update imagery ensuring individual assets resonate with specific audiences.
- Copy speaks to the audience, and we ask ourselves "Will this message resonate with them?" See the **messaging hierarchy within the campaign strategy document** for specific audience considerations and copy suggestions to support promotions across various audience segments.

SOCIAL MEDIA ASSETS

Social media is an effective way to connect with a wide audience, reaching both your current followers and potential new ones. By sharing videos, tagging other accounts, and linking to websites, social media allows you to deliver messages and guide your audience exactly where you want them to go.

We encourage you to tag **@aflauskick** whenever possible so we can reshare your posts and help boost engagement. For maximum impact, include any specific details or additional information in your post captions rather than on the images themselves. This will help drive stronger interaction with your audience.

Social media tiles are available for posting on state and centre Facebook and Instagram accounts, see below:

FLYERS

Flyers are used to share information with the audience and allow them to take that information home to read when they are ready. Flyers can be distributed at community events, and opportunities where there will be heavy foot traffic. Flyers should look to include an engaging image, program or event specific information and end with a call to action. For example, scan the QR code to learn more.

QR codes should be generated using Bitly. By using Bitly, you will be able to track how many scans your QR code has had, and therefore measure or determine the success of the flyer and whether it was useful for advertising that specific event/program. Once signed up to Bitly, simply copy and paste your link [here](#) to generate the trackable QR code, then use the editable template button below to add the QR code to your flyer.

Should you wish to share the link directly to your centre, please find your centre on the play.afl club finder map [here](#), find and select your centre and copy your unique centre link. If you have any questions, please contact our customer service team at aflauskick@afl.com.au.
